Errata

Pseudomonas alcaliphila sp. nov., a novel facultatively psychrophilic alkaliphile isolated from seawater

I. Yumoto, K. Yamazaki, M. Hishinuma, Y. Nodasaka, A. Suemori, K. Nakajima, N. Inoue and K. Kawasaki

International Journal of Systematic and Evolutionary Microbiology (2001), 51, part 2, pp. 349–355.

Some of the fatty acid data given in this paper are incorrect. No hydroxyl fatty acids were found in the three novel strains AL15-21^T, AL15-22 or AL15-2. In Table 2 on page 353, the values given for the novel strains for fatty acid 3-OH C_{10:0} should be for 'unknown fatty acid'. The values given for 3-OH C_{12:0} should be corrected to cyclo-C_{17:0}.

Description of *Patulibacter americanus* sp. nov., isolated from biological soil crusts, emended description of the genus *Patulibacter* Takahashi *et al.* 2006 and proposal of *Solirubrobacterales* ord. nov. and *Thermoleophilales* ord. nov.

Gundlapally S. N. Reddy and Ferran Garcia-Pichel

International Journal of Systematic and Evolutionary Microbiology (2009), 59, part 1, pp. 87–94.

The DSMZ accession number for the type strain of *Patulibacter americanus* sp. nov. given in the species description is incorrect. The correct type strain of *Patulibacter americanus* sp. nov. is CP177-2^T (=ATCC BAA-1038^T=DSM 16676^T).
