List of new names and new combinations previously effectively, but not validly, published – Validation List no. 127

International Journal of Systematic and Evolutionary Microbiology (2009), 59, part 5, 923–925

Three authorities of names included in Validation List no. 127 were given incorrectly as follows:

Acidovorax cattleyae Schaad *et al.* 2009 should read *Acidovorax cattleyae* (Pavarino 1911) Schaad *et al.* 2009.

Acidovorax citrulli Schaad *et al.* 2009 should read *Acidovorax citrulli* (Schaad *et al.* 1978) Schaad *et al.* 2009.

Xylella fastidiosa subsp. *multiplex* Schaad *et al.* 2004 should read *Xylella fastidiosa* subsp. *multiplex* Schaad *et al.* 2009.

Description of ‘*Synergistetes*’ phyl. nov. and emended description of the phylum ‘*Deferribacteres*’ and of the family *Syntrophomonadaceae*, phylum ‘*Firmicutes*’

Estelle Jumas-Bilak, Laurent Roudière and Hélène Marchandin

International Journal of Systematic and Evolutionary Microbiology (2009), 59, part 5, 1028–1035

The type of the order *Synergistales* ord. nov. is given in the paper as the family *Synergistaceae*. However, according to Rule 15 of the Bacteriological Code, the type of a higher taxon between the rank of subtribe and order (inclusive) is the ‘genus on whose name the name of the higher taxon is based’. Therefore, the type of the order *Synergistales* is the genus *Synergistes* Allison *et al.* 1993.
