International Committee on Systematics of Prokaryotes Subcommittee on the taxonomy of phototrophic bacteria. Minutes of the meetings, 27 August 2003, Tokyo, Japan

J. F. Imhoff and M. T. Madigan

International Journal of Systematic and Evolutionary Microbiology vol. 54, part 3, pp. 1001–1003

On page 1002, in Table 1 of the printed and PDF versions of this article, the abbreviations given for *Rhodovulum* and *Rhodobaca* are incorrect; they should be *Rdv.* and *Rca.*, respectively. Also, all abbreviations should end with a full stop. A new version of Table 1, which incorporates the aforementioned corrections, can be found below.
